FOREWORD

Once again it is my privilege to express our heartfelt thanks for your many valued orders and kind comments on the quality of the blooms received from our bulbs. It is pleasing to know that our efforts which are aimed at satisfied customers are meeting with so much success. We are always glad to hear from you — your words of praise are one of the satisfactions of being in business. But if in any way you are not fully satisfied, we are most anxious to know that too — only then are we able to rectify our shortcomings and give you full satisfaction.

Our growing season this past summer was on the cool and wet side on the whole. This gave us a fine season of bloom and resulted in a good healthy crop of bulbs though perhaps not as large as in some years.

As usual we have added many new varieties to our list and believe they are improvements on existing varieties. These we select from the hundreds of varieties grown in our trial gardens from which only a comparative few are chosen to enter our listing. We do not claim to grow all the meritorious varieties but we feel sure that our catalog contains a most comprehensive listing of exhibition winners, the most popular commercials, and the most promising novelties for the home gardener. Our motto has always been — only the best is good enough.

Sincerely,

ARTHUR ARENIUS

Discounts do not apply to new introductions, collections, or wholesale prices

On cash orders from the wholesale list — 5% discount on orders from \$25.00 to \$100. 10% discount on orders over \$100.00.

EXTRAS and OVERCOUNT — We give extras with all orders varying with the size of the order. Just mention some of the varieties you would like to buy and we will do our best to please you. We are noted for generous overcount of number, quality, and size.

GUARANTEE — We guarantee satisfaction in every way possible. We attempt to send out only clean, healthy, true to name stock, and if in any way you are not satisfied let us know immediately and we will do our utmost to please you. Also if you are pleased we are always glad to hear from you.

SHIPPING DATES — Unless otherwise requested retail orders will be sent out between March 15 and April 15 in the order received. Wholesale orders will be shipped out as soon as possible after receiving them. *Order early so as to be sure we are not sold out of the varieties you want.* This also gives us more time to fill your order with less chance of error and less overtime.

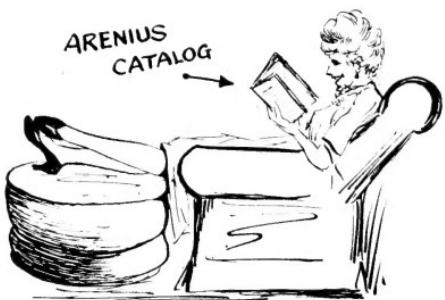

BULB SIZES — The retail list contains three sizes —

Large, 1 $\frac{1}{4}$ " up Medium, $\frac{3}{4}$ " - 1 $\frac{1}{4}$ " Small, $\frac{3}{8}$ " - $\frac{3}{4}$ "

Large size bulbs give the largest bloom. However, medium sized bulbs will give excellent spikes about 75% as large. Most small bulbs will bloom and at the same time grow fine bulbs for the following year.

VARIETY LISTING — In the descriptive list the variety name is given first, followed by the originator's name, its show classification and the approximate number of days needed for it to bloom. We have attempted to give a description of the varieties as we see them, listing important faults as well as good points.

Each variety separately bagged and labelled.

FIRST AID TO A BEAUTIFUL GARDEN

From Hawthorne, N. J.:

I find you have the finest bulbs and the best results of any I have purchased anywhere.

FAVORITES OF 1960

Here are eight lists of varieties representing each person's favorites as they saw them last year. The first lists are the favorites among the recent introductions while the second lists are the favorites among the standard low priced varieties. Mrs. Arenius and Helen (Mrs. Art, Jr.) both have seen all the varieties in our field as well as at many shows so are well qualified to comment. They have the added advantage of liking a glad because to them it is the most beautiful without the influence of statistics such as size, number open, number of buds, height, etc.

From Irwin, Penn.:

I grow over 200 varieties and among my best and most dependable are TAN GLO and WHITE SAILS!
Mr. A. J. W.

From Falls Village, Conn.:

Two years ago when I first started growing glads, I made the mistake of ordering from another grower. There is a world of difference in bulbs! I have no complaints about yours, but I certainly did about theirs. I intend to continue doing business with you for a long, long while.

Mr. G. T. A.

From So. Royalton, Vt.:

Still order Arenius bulbs. There are plenty of reasons!

Mrs. G. M. P.

From Contoocook, N. H.:

Glads received from you last year were absolutely beautiful. Thanks for so much beauty!

Mrs. H. B. E.

GLAD GUMPTION

Recently I was asked by a charming lady what caused me to spend the past forty years in growing and hybridizing gladiolus. I merely replied that I liked glads. Afterward however, in trying to analyze the reasons I realized the reasons are many and varied.

What other flower has the variety of color, in fact all of the colors of the rainbow with most of the hues and tints between?

What other flower is as easy to grow, so that even beginners are assured of success by following simple instructions?

What other flower has the lasting qualities of a gladiolus, which will keep up to ten days and open all florets on the spike?

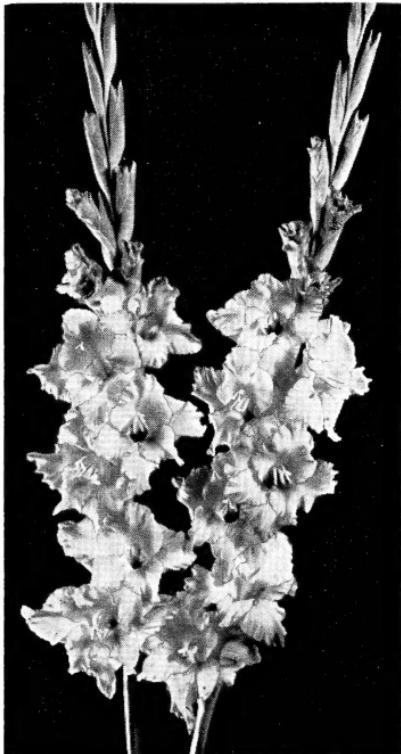

What other flower has the beauty of form, the even spacing, the artistic ruffling of its florets making a monumental spire of beauty comparable to Old World Architecture?

What other flower has more acres devoted to its culture and is used commercially the year round?

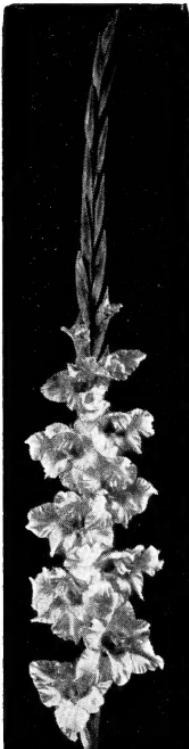

What other flower has about 70 Societies devoted to its advancement and whose devotees hold annual shows each summer and

vie with each other to produce the most perfect spikes honoring their idol?

How can we assign a mere cash value to a new variety of gladiolus? To me it is beyond price. How can you measure the heart's lift when you see the flash of a scarlet tanager in flight, the outpoured song of a canary, the graceful lines of a swan floating in water, the flight of a humming bird darting from flower to flower, or even the homely chattering of a flock of Grackles in the yard? What of the indescribable scarlet of a gladiolus, or the dainty perfection of the crinkles and ruffling of a miniature gladiolus? When does the intangible become tangible? We do not really value gladiolus for what they might bring at auction, nor should we try always to ring up the value of a heart's lift on the cash register.

My gladiolus from you were the finest grown anywhere around here. The florist told me they were the best they knew of anywhere.

Mr. D. N.

APPRAISING THE NEWER ONES

This past summer GLACIER again impressed us as the best all around white we have ever grown and our florists want it ahead of all other glads. Also on the show table it won at least 6 grand championships. For the cut flower grower WHITE FRIENDSHIP is now widely grown particularly for early blooms. Other good ones are SNOW VELVET with its fine show spikes as well as ICE FOLLIES and PEGGY WHITE. FLORENCE NIGHTINGALE, SIERRA SNOW and PROF. GOUDRIAAN are still important to the cut flower grower and we cut them by the thousands.

The whites with throats have such fine varieites as WHITE SAILS, the grand champion contender as well as a good cut flower, SPARKLING EYES, the purple throated beauty, plus the most boldly blotched and delightful little QUEENS PAGE.

Among the popular green varieties we like GREEN ICE with its delicate shade of cool green on tall straight spikes and GREEN WOODPECKER with formal spikes holding 10 open consistently. Also good are early blooming SHAMROCK, greenish yellow CHARTREUSE, the reliable cutter GREENLAND, and ERIN about the greenest of them all.

LANDMARK has taken the cream colored glads by storm with 9 grand championships to its credit last year. Also capable of top awards are well known LORELEI and FLORADORA a grand cut flower as well. Early flowering ARES is the leader of the 300 class and a popular cut flower, while gorgeous PARTY RUFFLES is one of the most beautiful of all glads. Not to be left out are ruffled ANGELS SERENADE and smooth colored JUBILEE.

YELLOW SPIRE continues to gain friends with its top notch exhibition spikes. From Holland the new GOLDFACE gave tall stately spikes in a most beautiful shade of yellow. Also among our favorites are chartreuse toned LARGO, amber toned GARY — a grand cut flower and two toned D'ARTAGNON and PROFILE.

Fine additions to the deep yellow varieties are GOLDEN GLO, GOLDEN WAVES, and GOLDEN MIRACLE all tall stately heavily ruffled varieties. Only time will tell which is best. FORT KNOX continues as our favorite cut flower in this group along with tall red and yellow CONRAD, late blooming GOLDEN SUNSHINE, and intense colored CATHERINE BEATH.

Among the buff varieties RIVIERA continues to give tall husky spikes along with smooth colored VIVA both good competitors for giant sized A. B. Coutts and PATROL with its many open florets. Also fine are two tone GOLDEN PALOMINO and PACTOLUS a topnotch early cut flower.

The orangized colored glads present a dazzling array of color with FORTUNE the brightest of them all and a good spikemaker as well. Gayly colored Cabellero is one of the most striking of all glads along with deep toned TIGERTONE a medium sized eyecatcher. REGINA continues to be one of our favorites while FIESTA always draws attention in the field. CRONUS is rapidly becoming the leading show variety in this group.

Varieties to watch in the light salmon group are ELF with its perfect exhibition spikes, VISION with its long flower head and many open florets, and PARFAIT the leading exhibition miniature. Not to be left out is gorgeously ruffled BERMUDA.

The deep salmon glads are led by SALMON QUEEN with close competition coming from LIBERTY — both grow big formal spikes. Of interest is the unusual coloring of IRISH ROSE, the tall easy cutting spikes of SUGAR ELL, and the salmon and yellow combination of BOISE BELLE, another fine show glad. Tops for cutting are clean colored MINARET and ruffled CORAL ACE.

Coming to the front in the scarlet class is FIRECRACKER with its brilliant coloring and tall spikes. Still good ones are FIREFLAME, a most reliable grower, SANS SOUCI, the tall cut flower, and LITTLE DIAMOND, our favorite exhibition miniature. ALBERT SCHWEITZER still impresses us as the best cut flower while LIFE FLAME is the earliest to bloom.

The light pink glads continue to have some of the finest varieties in existence. Among these are JILL with its tall spikes of smooth rosy pink, TEMPTRESS the best exhibitor variety, CORONATION a coming commercial variety with unexcelled color value, COUNTESS a tall stately variety that can open up to 10 at a time and gorgeously ruffled DIMPLES. Reliable cut flower varieties are giant sized PINK PRIDE, PHANTOM BEAUTY and tall DIXIE JEWEL. Popular also are red throated TARGET and reliable growing CONTRAST.

The deeper pink glads are led by SPIC AND SPAN the number one variety of the past decade. Other outstanding varieties are giant sized BOUDOIR and 300 sized GEM STATE, capable of opening 14 florets at a time. Most reliable cut flowers are early blooming FRIENDSHIP, gigantic PAUL BUNYON, and SUMMER QUEEN.

The light red glads have the precise formal spikes of REDCOAT a good exhibition variety, the easy cutting spikes of HILLTOPPER, and very early blooming RED SAILS. Also noteworthy are RED RADIANCE, the most widely grown cut flower, RED TAPE with its ability to open 8-10 florets on good spikes and of course ROYAL STEWART the All America award winner.

The deep red glads present a strong group with WINNEBAGO CHIEF gaining friends with its large formal spikes. Its competition comes from OSCAR another formal giant, HAR-RISBURGER with its bright clear color, and RED PEPPER one of the best varieties to come out of HOLLAND. A new one to our list, PROMENADE, is the best red with a white throat variety that we have grown.

The black reds have excellent newer varieties in JACK OF SPADES, a coming exhibition variety and the most heavily ruffled, CONGO the giant of this color, DARK BRILLIANCE the present leader for exhibition, and TOP HAT our favorite variety of this group. Others are well known ACE OF SPADES, reliable BLACK PHANTOM, and FESTIVAL, a tall strong grower.

Among our favorites are the many and distinctive rose colored varieties. Excellent new ones are LOVE SONG, a tall spike maker with good cut flower qualities, BEN TROVATA, a new one from Holland with near perfect formal spikes, and AMBITION, a gorgeous rose and cream exhibition variety. For cutting TRAVELLER still continues to lead the list with INNOCENCE in a tall pale rose giving us fine early spikes.

Among the medium rose varieties are ROSEDENE, a first early variety in a clear bright rose, GYPSY ROSE, a large tall grower that should become widely grown, GAY PAREE, a good grower with a silver petal edging, and TRITONE, one of the most beautiful and different varieties we have grown. Others in this color are WILD ROSE the best cut flower variety, WILLOW ROSE, a winner at the show table, ROSE SPIRE, the tall cut flower variety, and gayly colored ROSITA.

In the deep rose class DIRECTOR continues to impress with its gorgeous raspberry rose color and full formal spikes. Also good are BRENDA, which has large full spikes in a deep yet lively shade, AVENGER with its neat precise spikes, LYNNE HILL with its distinctive and unusual color, LILA WALLACE a top notch early variety, and BURMA the grand old timer.

The lavender glads have many varieties of outstanding merit. Among these are CATTLEYA, now a proven exhibition variety with its long spikes, LOHENGRIN, possibly the best cut flower in this group as well as a coming show glad, and HIT PARADE the 300 size show variety. CAMPANILE continues as the top commercial variety, with HONEY LOU and MONONA continuing to produce top quality spikes. Our own LAVENDER GEM was outstanding last summer with many major awards at the shows.

Still at the top of the purple varieties is KING DAVID, always a contender for grand champion while quantities of The RAJAH are grown for cut flower use. Others we like are the lustrous PURPLE BURMA, with its rich florets of true purple, consistent ROYAL SCOT, a fine commercial, and KAREN the purple and yellow novelty.

Still the leader of the light blue class is VIOLET CHARM with its tall husky spikes and CARRIBEAN, the All American beauty. Also good are BLUE DIAMOND the nearest of any to real blue, DARK EYES with its pale blue florets and bold violet throat, and PINNACLE with its spectacular spikes. For cutting HIGH LIFE, VENUS, and AQUA QUEEN are most useful.

The deepest color of the dark blues is had by THOMAS A-STONE, while BLUE PETER continues to give outstanding spikes with 8-10 open at once. The giant of this class is SALMONS SENSATION with 5½" tall spikes and 6" florets while attention getters are tricolored BLUE DEVIL and formal BLUE CONQUEROR.

From Indian Orchard, Mass.:

I sure have been the gainer by letting you pick my extras — they have been the very best of glads, TAN GLO, WHITE SAILS, etc.

Mrs. G. E. S.

From No. Royalton, Ohio:

Your bulbs are very nice and you are certainly generous! You can be sure you'll get all my future orders.

Mrs. W. B.

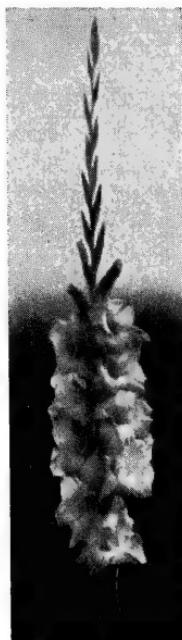

The many and varied smoky varieties always attract the smoky fans and those who like the unusual. On the show table TAN GLO is still unrivalled though we are much taken by the nice spikes and attractive color of BLUE SMOKE a fine new one. COPPER LUSTRE is most popular with its large spikes on a brownish tone, PRUNELLA grows massive spikes in a rich plum color, two toned PERSIAN RUG always attracts attention, and PRAIRIE has the darkest color.

Of interest in the A.O.C. class is the new All America variety RUSTY a tall strong grower, HINDUSTAN in an attractive tan color, and MANDY in a unique dark mahogany shade. Also good are BROWN LULLABY the leading exhibition variety, PAPOEA in a brownish red color, and BUCKEYE BRONZE, in a smooth bronze color.

Also of note are the many varied and beautiful butterfly varieties from Europe's foremost hybridizer Konynenburg and Mark. They represent a new advance in medium sized gladiolus and are of particular interest for home use though some of them are among our leading exhibition varieties. Among the best of these are early blooming ARES, a red and yellow beauty, FEMINA a gawdy salmon with a red throat bordered yellow, and QUEENS PAGE an attractive red and yellow combination. Other newer ones are LITTLE DIAMOND and ELF top exhibition varieties, GIPSY LOVE a red throated beauty, TOPOLINO the gorgeous red and yellow variety, DESIREE, an attractive deep scarlet, BIBI, ivory overlaid with pink, and SUMMER FAIRY of reddish salmon color.

From Wiscasset, Maine:

Have been buying Glad bulbs from you for many years. Always well satisfied so here I am again.
Mr. F. W. W.

Lisbon Falls, Me.:

The glad bulbs you sent this spring produced the most beautiful glads we ever had — many thanks for extra generous overcount.

Mr. E. E. G.

From Unadilla, N. Y.:

We won a section champ with your WHITE SAILS out at Rochester this past summer. It was a beauty! We appreciate your extra count and extra varieties. We order from 4 or 5 places and you have been the most generous.

1961 INTRODUCTIONS

Creamette

210 (Staples) (Seedling x Statuette) VE

Show fans and commercial men alike will delight in this light cream miniature. Very early to bloom, the 3 $\frac{1}{4}$ " lightly ruffled florets with slightly deeper cream throat make it one of the best prospects seen in some time.

Creamette will hold 7 wide open florets, show 6 to 7 in color, and a like number of green buds, out of a total of 19 to 20 buds, giving a nicely balanced spike. Total plant height is 42" — 45" and flower heads 21" to 23" long. Uniform in growth, it is a good producer of large bulblets which germinate nearly 100%. Florists like its exceptionally clean color, particularly for wedding work.

Shown only twice, it was Best Seedling over all sizes at the N.E.G.S. seedling show at Medfield last summer. We believe you'll like Creamette.

Susie

(261) (Klein)

Little Miss x Wedgwood

Our 1961 miniature introduction which is rated by many as the prettiest miniature ever developed. The color is an unusual combination of rose - lavender with large yellow throat - both colors are lively, creating an unusually pleasing effect. Its heavy ruffling and fine growing habits will enhance its value for both the hobbyist and florist. Even if you don't like miniatures you should reserve a spot in your garden for one of the most unusual glads ever developed.

Your glad bulbs have grown wonderfully for me — the show flowers of Cape Ann, Gloucester.

Goldfind

(414) Cotter

Goldfind is a slightly ruffled medium yellow which grows up to 5½ ft. tall. It has more than ample handle for cutting and makes up to 30" — 32" heads of 20-22 buds with 8-9 open florets of good placement and facing. Makes plenty of large bulblets which germinate readily. Very healthy and vigorous. It has received B plus ratings at the N.E.G.S. seedling shows even from bulblet grown spikes. For a long time, we have been looking for a good commercial type yellow and feel confident we have found it in Goldfind.

Tanarama

(491) (Seher)

Pirate Cache x Unknown

Most of the smokies are a fusion or blend of the grey, tan or brown tones. In Tanarama we have a beautiful, clear, clean light tan with a cream throat. Tanarama opens 6 slightly ruffled blooms on a 22 bud spike, which is up to 5 ft. tall. It is extremely healthy and a most wonderful color for arrangements. Tanarama won the American Home Achievement Award at the N.E.G.S. show at Framingham, Mass. this past summer. It has never rated below a "B" the few times shown as a seedling. We think Tanarama is one of the most beautiful of all smokies and a superlative decorative.

From Durango, Colo.:

The bulbs were so nice, large, and clean, and the flowers — I can't find enough words to describe their beauty and growth. Had I known anything about the different classes I'd have won all the glad ribbons at our Flower Show last fall. I took six flowers and won 3 blues and one red ribbon.

Mrs. J. A.

From Rutland, Vt.:

Have won first prize on many glads at the Green Mountain Gladiolus Flower Shows since ordering bulbs from you.

EXCERPTS FROM A FEW OF THE MANY LETTERS ABOUT GLACIER

I was specially impressed with your introduction, GLACIER. Each of the six bulbs I had produced excellent spikes. I won a blue ribbon at the Minn. Glad Show with an entry of GLACIER despite the fact that this was the last of the six that bloomed.

Mr. V. J. S., Owatonna, Minn.

GLACIER is the best white I ever had. It's a show winner for sure!

Mr. F. L. S., Cedar Rapids, Iowa

Recorded remarks on GLACIER. Enormous growth, spike 6'2" — 23 buds, 9 open, ideal show spike. So — for our 1961 White — will increase our GLACIER stock.

Mr. R. E. K., Imperial Beach, Calif.

I sure think GLACIER is a good one — puts up a perfect spike.

Mr. H. R. V., Mineola, N. Y.

I have a small commercial glad business and hope to make GLACIER my main white.

Mr. R. B. T., Uncasville, Conn.

GLACIER was the nicest white in my garden with good color and growth and excellent placement. What a surprise to buy such a fine introduction for such a nominal cost when more expensive introductions do not perform nearly as well.

Mr. D. H., Cedar Rapids, Iowa

GLACIER was one of the best that I had last year. I am sure that it is going to be a good show flower and fine commercial. Mine grew close to six feet and had 8-10 open. Also had good success with WHITE SAILS and TAN GLO.

Mr. H. B., Salem, Ohio

GLACIER — very long heads, excellent placement. This one can hold its head up in any company!

Mr. E. E. S., Bethesda, Md.

GLACIER was grand champion at the County Fair last summer and we think it is tops.

Mr. H. E. F., St. Elgin, Ill.

Your description (of GLACIER) was much too modest. We had a grand champ with GLACIER at the So. Wis. - No. Ill. Society's show. Competition was tough — the 400 white class had 23 entries — so GLACIER had to be good! But all our spikes of it were super-duper; 21-23 buds, 8 open — it was the best 1959 introduction we grew (and we tried 40 new ones). In fact, it was the best variety of the 200 that we grew.

Mr. H. J. V., Rock City, Ill.

JOIN A GLADIOLUS SOCIETY

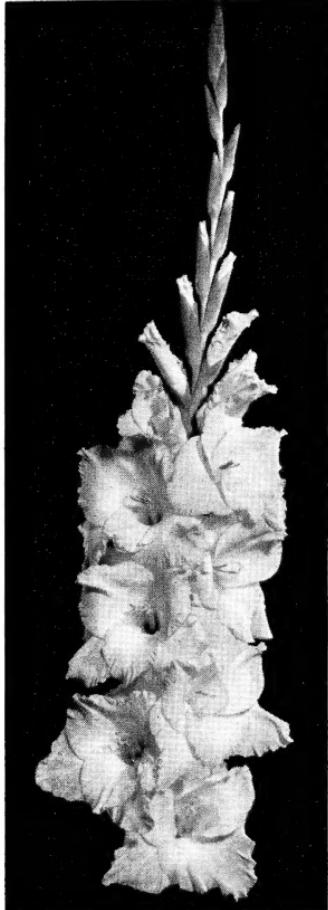

There are gladiolus societies in nearly all localities of the country composed of glad fans of all degrees—from the backyard gardener with a few bulbs to the commercial grower with many acres. With them you may receive the benefit of their publications with most up-to-date information of all kinds pertaining to gladiolus, good fellowship at their shows and meetings (who else can fully appreciate that 8" bloom in your garden?), and a chance to test your growing skill at the many gladiolus shows.

Our leading national society is the NORTH AMERICAN GLADIOLUS COUNCIL — Dues are only \$3.00 per year and entitle you to receive the N.A.G.C. Bulletin — a quarterly publication of all the latest information pertaining to gladiolus — Membership secretary — Mr. Al Trippel, 904 East 7th Street, Auburn, Indiana.

Of international scope is the NEW ENGLAND GLADIOLUS SOCIETY devoted primarily to the home gardener and hobbyist in the gladiolus world. Its fine publications include a year book plus 4 quarterly magazines. Membership is \$4.00 pr year. Write to New England Gladiolus Society, Inc., Horticultural Hall, Boston, Mass.

GOLDEN GLO

LOVE SONG

From Brattleboro, Vt.:

Have been growing glads as a hobby for 15 years and must say your bulbs are the healthiest I've ever bought.

Mrs. J. J. Sr.

From Taylorsville, Ky.:

Nice bulbs! I'm sure the Arenius coat of arms bears the motto, "It's more blessed to give than to receive" for in every single bag of corms were pleasant overcount surprises, then a nice lot of extras as well. My sincere thanks.

Miss E. G.

From Clay City, Ind.:

The YELLOW SPIRE won first place in the Fair Gardens Flower Show held at the Wabash Valley Fair. As last year was my first time to enter an exhibition at a flower show — your bulbs were a wonderful inspiration for an amateur exhibitor.

Mr. E. F.

From Spencer, Iowa:

We certainly had wonderful results from last year's order from you. Your bulbs make the best growth and were more uniform in size — much cleaner looking too.

Mr. W. G.

From Middletown, Conn.:

Our many friends and customers enjoy your glads greatly. We look forward to ordering glads from you each year.

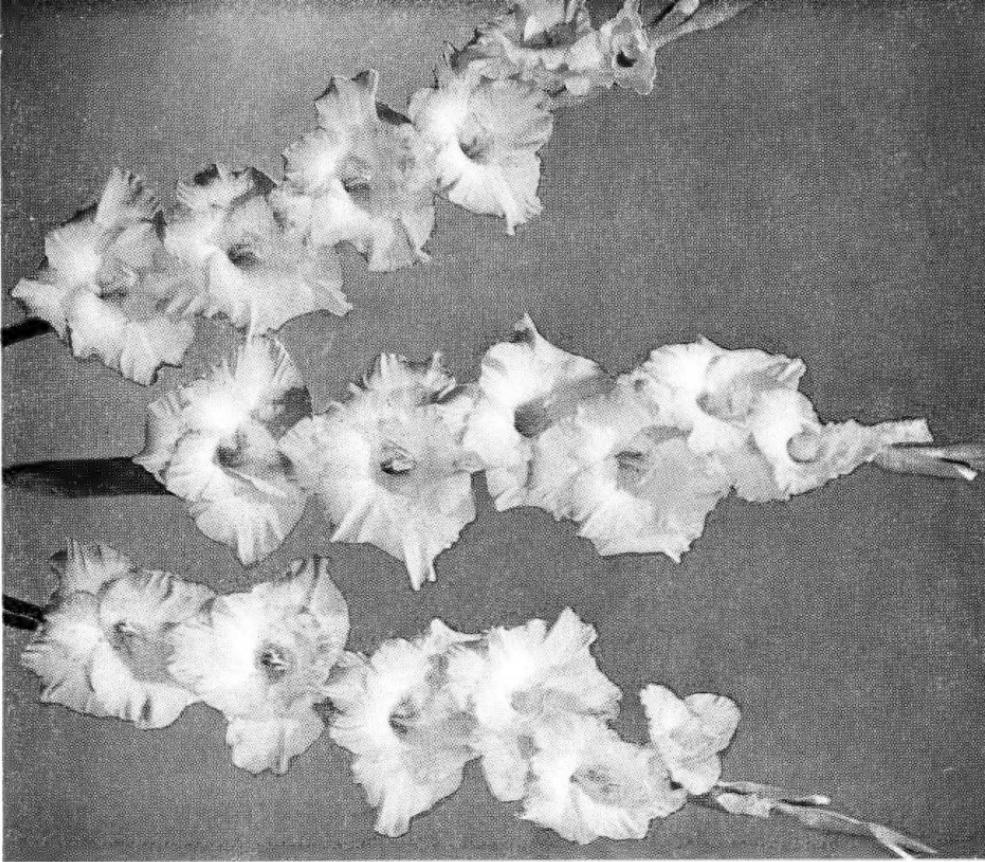

Mr. R. L. P.

From Castine, Me.:

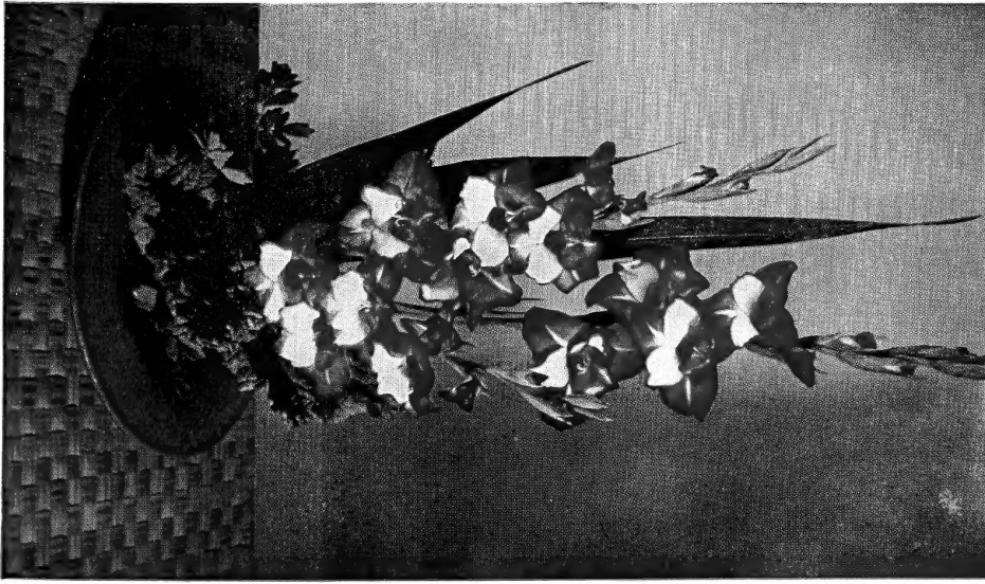

As I try to express myself I find it impossible, and only wish that, at the moment there was a new dictionary out with more and better adjectives from which to choose. I know that you must experience a special happiness that can only come from giving great joy to others!

Dr. A. M. N.
